Summary

A results-driven Data UI Designer with over 4 years of experience in interpreting and analyzing data to drive successful business solutions. Proficient in SQL, Python, and Tableau, with a proven track record of developing interactive dashboards, identifying key market trends, and improving data processing efficiency. Eager to apply analytical and problem-solving skills to support the data-driven culture at a forward-thinking organization.

Skills

Data Visualization: Tableau, Power BI, Matplotlib, Seaborn
Database Management: Advanced SQL (PostgreSQL, MySQL), MS SQL Server
Programming: Python (Pandas, NumPy, Scikit-learn), R (Basic)
ETL & Data Wrangling: Data Cleaning, Data Transformation, SSIS
Tools & Platforms: Microsoft Excel (Advanced, including Power Query & Pivot Tables), Jupyter Notebooks, Git, JIRA

Education

Bachelor of Technology (B.Tech), Computer Science & Engineering | Anna University, Chennai | 2016 – 2020
CGPA: 8.5/10
Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Machine Learning, Probability & Statistics.

Certifications

Google Data Analytics Professional Certificate | Coursera | Completed 2022
Microsoft Certified: Power BI Data Analyst Associate | Microsoft | Completed 2023

Projects

Retail Sales Performance Dashboard
Designed and built an end-to-end sales dashboard for a fictional retail chain using Tableau and a PostgreSQL database. The dashboard visualized key metrics like YTD sales, regional performance, product category profitability, and sales growth.
Technologies Used: Tableau, SQL, Python (for data pre-processing).
Outcome: The interactive dashboard allowed for dynamic filtering by date, region, and product, providing a comprehensive tool for business users to uncover sales trends and identify underperforming areas.
